WEST INDIES EXTENDED CARE COMMUNITY

for Residents with Special Care needs and Memory Care

Our Philosophy:

We believe that each member of our care management team plays an important role in the optimal quality of excellence for the independence of our residents. We tailor a care plan to meet each residents individual and unique needs which involves 24 hour personalized care, and the finest comprehensive activity program for residents with special needs and memory care. The care manager and our licensed nurse are involved in all aspects of team management, resident care & management, quality assurance and family participation. The Orange County Alzheimer Association assists with our staff training as well as a “memories in the making” art class at our community.

The West Indies community provides beautiful studio or one bedroom suites in a secure environment while maintaining a warm, happy, home-like feeling. Family and visitors are encouraged as well as volunteers of all ages, to visit and participate in the activity program, music sharing, gardening, arts and crafts or just reminiscing.
